Compressor Guard A/C Filter Plates now in EPICOR EPartExpert online catalog

– Compressor Guard A/C Filter Plates for over 7,000 Applications by YMM

Atlanta, GA (September, 2013) — AirSept Compressor Guard A/C Filter Plates are now available in the online EPartExpert catalog from Epicor.

When a compressor fails, unless you replace every A/C component, debris often remains in nooks and crannies in the system, waiting to be drawn into your compressor installation at startup. This is a major reason replacement compressors fail at a much higher rate than factory installations.

Compressor Guard A/C Filter Plates protect new and replacement compressor installations from debris in the system. Compressor Guard Suction Filter Plates are application-specific, OE-fit design to match the factory suction line manifold. Compressor Guard Filter Plates are available for over 7,000 popular, high-volume compressor applications from 1978 to 2013.

You can find the exact Compressor Guard Suction Filter Plate for any application by year, make, and model in Epicor EPartExpert online and electronic catalogs.

The Epicor EPartExpert portal enables distributors to extend parts information, pricing and electronic ordering capability to aftermarket customers and to vehicle dealership parts and service operations.

The Epicor solution serves approximately 23,000 parts distribution locations and nearly 168,000 registered automotive service locations. By linking to this network and utilizing industry-leading Epicor EPartExpert product data, users can electronically interchange original equipment and aftermarket part numbers and provide other critical product details needed to facilitate orders.

New OE-fit Compressor Guard Filter Plates are available for many fast-moving scroll compressors, including:

- Sanden TRS090 / HS110 scroll compressors ('95-'08 Honda, Acura, Mazda and Chrysler)
- Ford Scroll compressor ('02-'08)
- Sanden TRS105 Saab Scroll (Saab Nine-Three, '00-'03)
- Sanden TRSA12 GM Scroll (Saab Nine-Seven, GM and Isuzu SUVs)
- GM / Saturn Scroll 3.5 Liter ('04-'07 Vue, '05 Chevy Equinox)
- GM / Saturn Scroll 2.2 Liter Small Port ('02-'07 Vue)
- GM / Saturn Scroll 2.2 Liter Large Port ('04-'07 Vue)
- Mitsubishi MSC105CA ('03-'06 Outlander, '04-'06 Lancer)

■ Over for more

OE-fit Compressor Guard Filter Plates are also available for other high volume compressors, including:

- GM H6 / HD6 / HT6 Series ('93-'05 GM cars, trucks)
- Mitsubishi MSC90C / MSC90C ('01-'05 Chrysler, GM and '94-'08 Mitsubishi)
- Denso 6SBU / 7SBU / 7SEU (various Audi, BMW, Cadillac, Chrysler, Dodge, Land Rover, Lexus, Mercedes-Benz, Porsche, Toyota, VW, and Freightliner Sprinter vans)
- Denso 10S17F / 10S20F Series ('00-'08 GM trucks, SUVs, Vans)
- Denso 10S20C / 10S20H Series ('01-'08 Chrysler Minivans)
- Sanden SD Series ('94-'05 Dodge truck).

An up-to-date Compressor Guard Application Guide is available free from AirSept.

OE-approved Compressor Guard suction filter plates sit at the suction port and trap large debris. The tapered filter forces debris down around its sides. The filter remains unplugged, maintaining refrigerant and lubricant flow.

Compressor Guard Filter Plates install in under five minutes with no line cutting.
